

PROJECT PROFILE

Customer: Amarillo National Bank
City: Amarillo, Texas
Type: Multi-Media Meeting Facility
Contact: William Ware
Date: Spring 2009

General Description:

Founded in 1892, Amarillo National Bank is the largest family owned bank in the nation. The downtown banking complex has multiple meeting facilities equipped with state-of-the-art audio-video technology. The Plaza II conference center is the largest of these rooms with seating for over one hundred people. A recent "media makeover" was performed by AMS to conceal all cable connections and update the electronics. An AMX control system allows selection of computer inputs and easy remote control of the DVD and CD player. The system also features an Elmo document camera and a Sanyo 4500 ANSI lumens DLP video projector. A custom desk was designed by AMS to accommodate the coordinators of ANB's weekly marketing meeting. The desk features table top input connections for laptop computers and a Think Pad docking station. Most of the equipment is housed in the main rack located in the back of the facility. A smaller cabinet houses accessible equipment such as the DVD, CD, and I-POD docking station.

Equipment List:

1	Sanyo PDG-DXT10L	Video projector
1	Sanyo LNS-S40	Zoom lens
1	Extron MPS112CS	Video Switcher
1	AMX MVP-8400i	8" touch screen
1	AMX NI-3100	Netlinx controller
1	AMX NXA-WAP	Wireless access
1	AMX-VOL3	Volume cards
1	LinksysEZXS55W	Network switch
1	Furman PL8II	Power outlets
2	AKG WMS450	Wireless mics
1	Tascam DV-D01U	DVD player
1	Tascam CD-01U	CD player
1	Rane MLM82a	8 channel mixer
1	QSC ISA 750	2 channel amplifier
20	JBL Control 26CT	Ceiling speakers
1	JBL Control SB2	Subwoofer
