

## PROJECT PROFILE

**Customer:** CHS-Covenant Medical Center, Knippling Center  
**City:** Lubbock, Texas  
**Type:** Customer service training center  
**Contact:** Bobby Fry  
**Date:** Winter-2007

### General Description:

The Knippling meeting complex consists of seven banquet and training rooms located in the heart of Lubbock's medical district. The customer training center has over 20 computer terminals for training employees on data entry and billing services. The students can view the data on a 6' X 8' screen powered by a 5500 ANSI lumens Sanyo projector. A Kramer eight button remote simplifies the system control for selecting the switcher inputs and power control for all components. A 42" LCD monitor is located at the rear of the room for the instructors display. Audio support is provided by four JBL ceiling speakers and a Crown mixer / amplifier. A Shure wireless system with a Countryman earset was installed for the instructor's use. The room was also outfitted with new A/V furniture including a podium and equipment rack in a by VFI. The system was designed and installed by AMS with local support provided by Ideacom of Lubbock.
